

## **HOMEWORK: BUSINESS**

### **KEY STAGE 4**

Each week students will be set homework using Show My Homework. Typically, the objective of these tasks is to re-enforce knowledge and aid the process of transferring that knowledge to long-term memory. Tasks will vary, including learning key terms, revision sheets, online exercises and tasks as part of larger project work.

On average, there will be between twenty minutes and half an hour of homework each week.

### **KEY STAGE 5**

Work will be set for students after each lesson using Show My Homework. This is to be undertaken during Private Study and, if not completed in Private Study, at home. Tasks will vary but there will be an emphasis on students applying concepts learned in class to real life business situations (usually case studies).

At least two substantive pieces of work per week will be set plus an expectation of reading research and note taking.

### **Sixth Form Private Study Tasks**

In addition to the tasks set in lessons, the Department have created a list of Private Study tasks. These are to be completed in addition to homework as they are designed to promote broader reading in the subject.
