Dear Parents/Carers

EV12 Bus Incident

This morning, the police have made us aware that there was an accident involving the EV12 bus at Eckington Bridge, with 57 of our students on board. At the current time our understanding is that the bus has left the road and ended up in a ditch with flood water around it. The fire service and police have been attending the scene, supporting the students and we have been informed by the police officer in charge at the scene that none of the students are injured, nobody requires first aid, and they are safe and well.

The students will be brought on a replacement bus to school and we anticipate that they will arrive here by approximately 10.30am. We will meet the students when they arrive at school and make sure that they have some hot drinks and food, before going to lessons.

The police have asked us to request that parents/carers do not go to the scene, as this is impeding the recovery operation.

Thank you for your continued support.

Yours sincerely

Dr A Evans
Headteacher
