

## **Year 11 Provision: Design & Technology (Timbers & Graphics)**

Revision guides and knowledge organisers are available on PHHS Live, which will aid them in the creation of revision resources. Students are encouraged to focus on individual topics during each revision session and ensure their revision is active. This means creating revision resources such as mind maps and flash cards. There are suggestions for revision methods at the back of the D&T Core revision booklet. There is also a copy of the textbook available on PHHS Live.

Students are encouraged to focus on the two main topics - Core (general knowledge of Design and Technology) and their specialism, which will be either Timbers or Paper & Board (Graphics).

This will allow them to identify areas more clearly for further work which they can then use the revision guide and suggested websites to revise.

In addition, students are set exam style question through "Show My Homework". These question sheets are available under each topic on PHHS Live.
